March 2002

## *Supplier of the Year Smith Millwork*

**S**mith Millwork is located in the heart of the furniture manufacturing district of North Carolina. Quality woodworking is an art form handed down from generation to generation. Smith puts the same fine furniture craftsmanship into mouldings that adds character and quality to homes and businesses all over the Southeast. They also carry a complete line of window and door components.

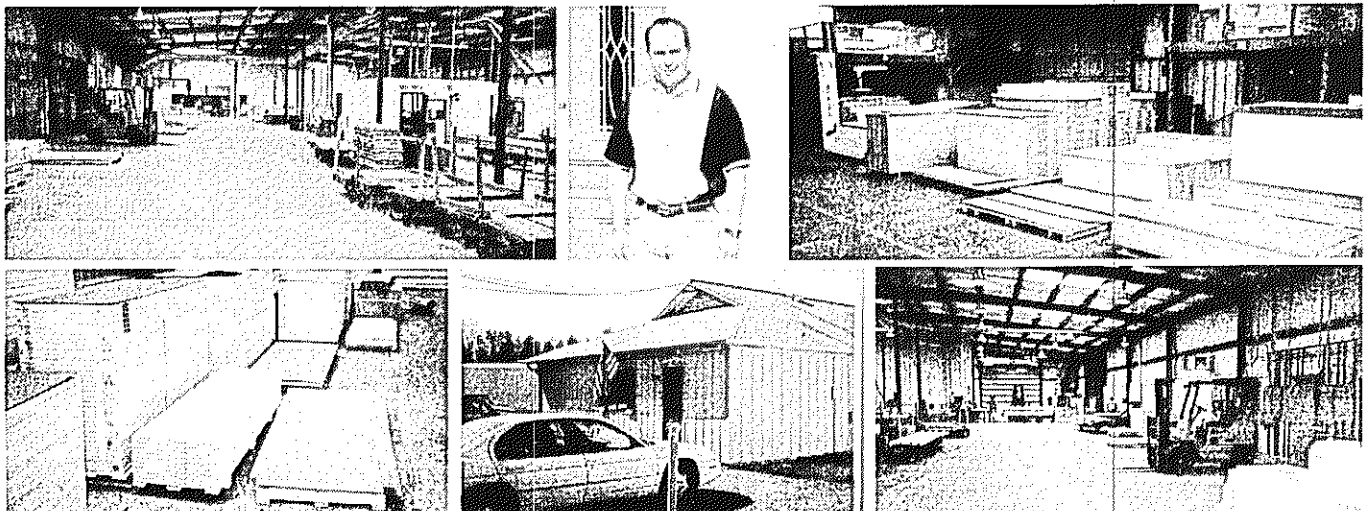

If you're having trouble finding moulding in any species of wood, just call Smith. If they don't have it, they'll make it. It is that customer service attitude that had their customers recommending them for SBMA's supplier of the year. They find the species of wood you need, they fill your order quickly and exactly.

SBMA announced Smith Millwork as the Supplier of the Year at the annual Building Products Buying Show in Charlotte, North Carolina, February 7, 2002. SBMA members vote on supplier members for the award.

Criteria for the award are:

- ▶ Community involvement
- ▶ Involvement in industry related activities
- ▶ Contribution to SBMA and/or NLBMDA
- ▶ Overall business success and accomplishments.

*"Every order is handled in a very professional manner. 99% of their invoices are correct. Returns are picked up and credited promptly. They do an amazing job – their customer service is outstanding!"* stated Anita Flood, Stephen's of Fuquay-Varina, North Carolina.

**SBMA Congratulates Everyone at Smith Millwork**
